

## **POST Institute's Mission**

To promote a community of healing through the use of love- based and therapeutic strategies that provides unconditional support, nurtures children and families, and gives them the greatest opportunity for healing.

## **POST Institute's Vision**

To create a therapeutic healing environment in which families experience a dynamic and innovative model of care. We empower parents/ caregivers in understanding their children in a manner that allows them to create more peace in their homes. Through the power of specialized thinking, teaching and treatment (POST), we provide a continuum of care that includes Treatment Homes, Group Homes, Schools, In Home Counseling, and Independent Living. The provision of these services allows us to transform lives, enrich the community and foster the power of love and relationships.
